**PARTS BULLETIN No. 01-11**

**08-04-11**

**Subject: AIR KIT HOSE SUPPLY - CUT LENGTHS**

Ausplow Air Kits use varying quantities of; 32mm (1.25"), 63mm (2.5"), 127mm (5"), 152mm (6") Rubber Hose.

Air Kit quantities have been based on supplying multiple rolls of a standard length, which have mostly been 20 metres. The only exception has been the 127mm and 152mm hose, where the standard 20m roll length is often too long and we have had to cut to 10m lengths.

For Spare Parts purposes, we have generally supplied full rolls of the 32mm and 63mm hose. Some Dealers have also taken full rolls of the 127mm hose.

As a service to Dealers, we have also cut 127mm and 152mm hose to specific lengths and shipped direct to machine owners.

The demand for cut lengths has reached a point where we are no longer able to provide this service. Our store resources are not able to handle this function in a safe and economical fashion, so we are forced to cease supply of cut lengths.

We are taking steps to be supplied the 127mm and 152mm hose in 10m stock rolls and this is now the minimum order quantity for these sizes. Supply of shorter cut lengths will have to be a Dealer provided service.
