PARTS BULLETIN No. 5-12

12-11-12

Subject: DESIGN CHANGE TO REAR JACK MOUNT PLATE- BOLT ON

Additional material has been added to the rear jack mount-bolt on 05486, now consisting of a larger mounting plate and manufactured with support lugs. This has given extra strength and support, being only an upgrade the part number will remain the same.

This new jack mount is completely interchangeable and only requires one additional U-bolt set if a customer orders a replacement.

The old style have now have been exhausted and all future production will be of new style.

**OLD STYLE
05486**

**NEW STYLE
05486**
