PARTS BULLETIN No. 5-15

01-04-15

Subject: NEW PART – SHANK GUARD EASITILL 820mm P/N 27227

From March 2015 all Ausplow Easitill machines will now be supplied with a new design shank guard assembly, specifically designed for 820mm digging depth tine assemblies for use in sand plain.

The new **Shank Guard Assembly Part Number 27227** was design to provide increased shank protection, and is compatible with earlier model Eastill machines without any modifications.

Easitill machines with a digging depth of 750mm will continue using the standard **Shank Guard Assembly Part Number 02250**.

02250 Shank Guard Assembly Easitill with Tungsten – V2
