## **PARTS BULLETIN No. 5-19**

**31-10-19**

### **Subject: Multistream Steerer Upgrade Parts**

To improve strength and durability, the Multistream Steer Axle has been upgraded. These upgrades include changes to the materials in the Steer Axle Drawbar and Pull Yoke that now utilise a larger 60mm in diameter M36 Steering Pin (was 40mm dia).

Machine owners requiring replacements for older 40mm Steering Pin, Pull Yokes and Drawbars will require to upgrade their steering system to the new 60mm Steering Pin and associated parts.

To help with the changeover, these parts can be purchased as a Kit at a reduced 30% price. (All pricing shown is excl gst):

#16078 MS Steerer Upgrade Kit – Suit M30 Tie Rods RRP \$2736.00

#16079 MS Steerer Upgrade Kit – Suit M25 Tie Rods RRP \$2736.00

**Please Note:** 30664 Steerer Front Axle Stoppers x 2 will require welding onto the axle in the positions shown below.

Individual spare parts for the new 60mm Steering system can be purchased as follows:

Part #	Description	RRP Price Excl gst	M30 kit Contents #16078	M25 kit Contents #16079
06537	Steering Pin 60Dia x 224mm LG M36	\$197.00	X1	X1
09073	Flat Washer M36	\$3.10	X1	X1
