Subject: Easitill Shankguard Wear Face Change

Ausplow has changed the type of wear face on its Easitill 750mm and 820mm Shankguards.

The tungsten wear face will be replaced with an Agtuff material providing excellent wear resistance at a reduced manufacturing cost.

The reduced cost to make #02250 750mm Shankguard and the #27227 820mm Shankguard has now been passed on resulting in a reduction of the RRP to \$145 excl gst for either of these Shankguards. (Previously was RRP \$240 excl gst).

Ausplow will be selling for a limited time, the current tungsten faced Shankguards 02250 and 27227 **at this new RRP \$145 excl gst until the end of Dec or until stock has run out.**

Any Preseason order placed this year for 02250 or 27227 will be charged at RRP \$145 excl gst.

Depending on demand, we expect the Agtuff Shankguard will replace the tungsten Shankguard in 2022. So if your customers want the tungsten faced shankguards it is advised to place your orders before the end of Dec this year.
