PARTS BULLETIN No. 7-14

19-09-14

**Subject: PRO-D PARTS PRICING
PRO-D TILLAGE TOOLS SYSTEM LAMINATE (ATTACHED)
PRO-D TINE PARTS G.A. LAMINATE (ATTACHED)**

As Ausplow continues to move forward developing new innovative designs, we are pleased to announce the launch of Pro D ground engaging tools.

On January 1st 2015 all new DBS Auseeder machines will be supplied with Pro D ground tools, and simultaneously spare parts will be available.

The new design provides enhanced durability and added functionality.

Pro D ground tools can be retro fitted to current Version 3 tine assemblies (2007 onwards), and Version 2 tine assemblies (1998-2006). However Version 2 tine assemblies will be required to convert to the current 32mm stainless fertiliser tubes to accommodate the new design polyethylene fertiliser boot, using;

15832 Pro-D Fertiliser Tube Upgrade Kit SS

Pro-D Features:

Pro-D blade;

- 2 x variable depth blades with 3 different depth options on each.
- Blade Pro D 57 (5", 6" & 7") and Blade Pro D 79 (7", 8" & 9" options).
- Additional tungsten at the top of the 79 blade.
- Easily adjustable due to easily removable pin arrangement.
- Blade adaptor with built in trash guard.
- Additional blade life due to:
 - Additional width at the bottom rear of the blade.
 - Additional length and width in bursting tile from 1 1/4" to 2" and 15mm wide.
 - Grooves to capture soil on the side of the blades to promote soil on soil wear.
- Hook on the end of the blade which serves as a tool for removing the retaining pin.

Pro-D Fertiliser Boot;

- Adjustable depth from 3" to 4" to achieve greater seed/fertiliser separation.
- Shield will promote additional life of the fertiliser boot.
- Shield will hold trench open longer in sandy soils.
- Nylon liquid tube is protected and securely held in place between the boot and the shield.
- Resists fertiliser condensation blockages.
- Fertiliser boot is longer with a larger opening, and can be used to sow larger seed.
- Easily adjustable due to an easily removable pin arrangement.

Pro-D Closing Tool;

- Easily adjustable seeding depth on an easily removable pin arrangement.
- Stem does not require replacement each time the closing tool tip is worn.
- Easy removable/replaceable closing tool tip.
- Additional material in the tip to extend the durability/life of the tip.
- Same profile as the previous closing tool.
- Slots and adjustments are identical to the old closing tool settings.
