

## PARTS BULLETIN

No: 8-22

14-10-22

### Subject: RIB and Seeding Unit Upgrade Kit Discounts

To encourage end users to upgrade their Tine assemblies to our current V4 Version, Ausplow is now offering 30% discount on the RRP for the 27220 and 11939 upgrade kits. (Note these kits are supplied as non-assembled parts)

Item:	27220
Description:	V4 Rib Upgrade Kit (sup loose)

Item:	11939
Description:	Seeding Unit & Linkage Assy V4 Tine

This special discount is only applicable to machines requiring **a full set**, ie: if an upgrade is required for a D260-70 bar with V2 Tine assemblies, then a full set of 70 kits are to be ordered.

Orders for these Full machine upgrades are to be placed on a **separate individual Daily order** and in the notes section the **Serial number** of the machine requiring these kits is to be listed.

When Ausplow Parts has verified the machine requiring the kits and the quantities ordered, the 30% discount to the RRP will be applied

Please note: If no serial number is detailed in the notes section **the Daily order will be processed as a standard Daily order with a 20% discount.**
