**Subject: New Pricing for tungsten related products**

Due to the sharp increase in the global tungsten pricing (upwards of 500%) we are unfortunately left with no alternative than to review our prices on products that utilise tungsten carbide.

Ausplow have been able to keep the increases modest at this stage in comparison to raw material increases by hedging with current tungsten stock. However, it's an evolving situation and we will continue to monitor pricing as we move forward and adjust pricing accordingly.

Order quantities will be monitored to ensure a fair allocation and product availability for all customers.

In addition, to help minimise the impact, the maximum discount applicable to all ground engaging tool orders is now 20% on all order types.

The below price increases are effective immediately and are subject to change without notice. Price increases on products will be as follows: -

Parts-	DBA Blades	+ 17.5%
	Old Style Closing Tools	+ 15%
	Pro D Blades	+ 22.5%
	Pro D Closing Tools	+ 15%
	All Scrapers	+ 12.5%
	Paired Row	+ 15%

Parts - Easitill Products remain unchanged for now

Discount - **20% off RRP Maximum on all order types**
