PARTS BULLETIN No. 1-08

07-01-08

Subject: NEW AUSEEDER BLADE & POINT OPTION - DBB

A new style of Digging Blade & Point Assembly has been introduced for Auseeder Machines to supplement the standard DBA Blade. The attached pages illustrate the individual components and the assembly.

Called the DBB, or "Deep Bursting Blade", this blade option combines some of the subsoil effect of the Easitill Deep Ripper "Durablade" with the minimum disturbance tillage of the Auseeder DBA blade. The DBB blade & point have been developed in response to requests from some Auseeder owners who were looking for more subsoil disturbance while still minimising surface disturbance and soil throw. The DBB is not intended to be a substitute for the Easitill Deep Ripper, as its depth is limited to around 8" penetration below paddock surface level with the DBB 9". It is intended to extend the versatility of the Auseeder DBS machines by permitting more aggressive subsoil working in conditions where owners feel this is desirable.

DBB Blade & Point Assemblies can be supplied as a set or as individual items. Initial fitment to a machine will require both components, but subsequent replacement will be governed by wear rate. The usual factors of soil type, moisture level, depth and speed will determine the wear rate and we have no data to make projections at this stage.

11663	Blade Assembly – DBB – 7"	57.00	RRP Excl GST
11580	Blade Assembly – DBB – 8"	68.00	RRP Excl GST
11660	Blade Assembly – DBB – 9"	70.00	RRP Excl GST
11582	Blade Point Assembly – DBB	54.00	RRP Excl GST
11662	Blade & Point Assy – DBB – 7"	111.00	RRP Excl GST
11579	Blade & Point Assy – DBB – 8"	122.00	RRP Excl GST
11659	Blade & Point Assy – DBB – 9"	124.00	RRP Excl GST
